

COMPANY OVERVIEW

Munis Healthcare Management Solutions (MUNSAI LLC) is an AI-enabled healthcare and life sciences consulting and technology firm delivering operational transformation, regulatory readiness, and intelligent platform solutions to commercial and government organizations.

We specialize in translating complex healthcare, regulatory, and operational challenges into scalable, execution-ready solutions, enabling organizations to operate with speed, compliance, and precision.

CORE COMPETENCIES

- Operational Excellence & Enterprise PMO Execution
- AI-Enabled Digital Transformation (OPS360 U-IOP® Platform)
- Regulatory Readiness (FDA, GxP, 21 CFR Part 11)
- Healthcare & Life Sciences Consulting (Pharma, Biotech, Diagnostics)
- Data Analytics, Research & Decision Intelligence
- Supply Chain, Logistics & Capacity Optimization
- Medical Affairs & Scientific Communications
- Workforce Training & Medical Education Programs

GOVERNMENT & PUBLIC SECTOR CAPABILITIES

- Public health program analytics and reporting
- Regulatory compliance and quality system readiness
- AI-enabled operational dashboards for healthcare systems
- Supply chain and logistics optimization in regulated environments
- Medical education and workforce development programs

REPRESENTATIVE EXPERIENCE

- Enabled global regulatory and operational continuity across 140+ countries for a pharmaceutical organization
- Designed precision medicine workflows integrating clinical, lab, and analytics systems
- Implemented capacity and scheduling optimization improving operational efficiency and visibility

DIFFERENTIATORS

- Healthcare domain expertise combined with AI-enabled execution
- Proprietary platform: OPS360 U-IOP® (Unified Intelligent Operations Platform)
- Platform + consulting delivery model (not just advisory)
- Regulatory-ready solutions for highly controlled environments
- Rapid pilot-to-scale deployment with measurable ROI

OPS360 U-IOP® PLATFORM

OPS360 U-IOP® is Munis' proprietary, modular intelligent operations platform designed for regulated environments. It enables AI-assisted insights, real-time decision intelligence, cross-functional workflow orchestration, and enterprise data integration—without replacing existing enterprise systems.

Clients gain enhanced operational visibility, compliance readiness, and improved execution efficiency across healthcare and life sciences environments.

CERTIFICATIONS

- WBENC Certified Women's Business Enterprise (WBE)
- SBA Certified Women-Owned Small Business (WOSB)
- Illinois BEP (Business Enterprise Program)
- DBE (Disadvantaged Business Enterprise)
